

## Android Mobile Deltek Costpoint Non-SSO Setup

### Android

1. Go to this link in your phone's browser:  
<https://keylogic-cp.deltekenterprise.com/cpweb>
2. Select the Add to Home Screen link above the +Additional Criteria option.

3. Select the Install option in the resulting pop-out window.

4. Open the Costpoint icon from the Home Screen and enter your Deltek credentials.
  - a. Username: 44845.XXXX.XXXX
  - b. System: KEYLOGICCONFIG

The image shows a login form with three input fields. The first field is labeled 'USERNAME' and contains the text '44845.MICHAEL.UHALD'. The second field is labeled 'PASSWORD' and contains ten dots. The third field is labeled 'SYSTEM' and contains the text 'KEYLOGICCONFIG' with a red dotted underline and a question mark icon to its right. Below the fields are three options: a checked checkbox for 'Remember me', a 'Reset' link, and a plus sign icon followed by 'ADDITIONAL CRITERIA' and the 'fido' logo. At the bottom is a blue 'Log In' button.

Please contact [Support@Keylogic.com](mailto:Support@Keylogic.com) with any questions.
